

StraightShot[®] M5 Microdebrider

SMALLER. LIGHTER. FASTER.

 *ergonomically engineered*

StraightShot® M5 Microdebrider

Smaller. Lighter. Faster.

With ergonomic engineering for balance and performance, the new StraightShot® M5 is the first and only microdebrider capable of 30,000 rpm.

- New direct-drive motor with straight-through suction
- Gearless operation
- Easy-turn rotation wheel

Versatile Technology for Your OR

The StraightShot M5 works with 125+ blades and burs, such as:

- 30K high-speed burs* for frontal sinus surgery
- Factory-calibrated EM blades for Fusion® ENT Navigation
- Quadcut® blades that reduce clogging

*30K burs are pending clearance

Rx only. Refer to product instruction manual/ package insert for instructions, warnings, precautions and contraindications.

For further information, please call Medtronic ENT at 800.874.5797 and/or consult Medtronic's website at www.medtronic.com/StraightshotM5.

Medtronic

IPC[®] System

INTEGRATED POWER CONSOLE

Innovation *that Transforms*

Inspired by Surgeons and Nurses in the Field

The Integrated Power Console is the **ONLY** powered ENT system to offer:

- The widest range of application-specific products
- IntelliFlow® remote control for irrigation
- 0.5 ml/minute irrigation flow rates for working in the facial recess
- Integrated facial nerve monitoring with the Visao® Otologic Drill and Stim Bur Guard*
- High-speed, application-specific curved burs for otologic procedures
- A complete anterior skull base surgery solution

*For use with Medtronic's NIM ® 2.0 and 3.0 nerve monitoring systems

Integrated Power Console (IPC®) System *Innovative*

The new Integrated Power Console delivers innovation that transforms your O.R. Its design was inspired by feedback from you, the surgeons and nurses in the field. Our IPC® system is the only powered ENT surgery console with the most expansive range of application-specific products. From inferior turbinoplasties to complex skull base cases, the IPC platform is your ENT surgery system.

*Integrated facial nerve monitoring with the Visao® Otologic Drill and Stim Bur Guard**

Easy-to-use touchscreen menu for each handpiece

IntelliFlow® remote control for irrigation

Maximum visualization for anterior skull base

Connect multiple handpieces at once

*For use with Medtronic's NIM® 2.0 and 3.0 nerve monitoring systems

ion that Transforms

Complete Integration

Power all of your favorite Medtronic ENT handpieces

- Straightshot® M4 Microdebrider
- Endo-Scrub® 2 Lens Cleaning Sheaths
- Skeeter® Otologic Drill
- Visao® High-Speed Otologic Drill

Flexible Irrigation

On-drill irrigation reinvented

- Disposable IntelliFlow® remote allows precise flow control from sterile field
- 0.5 ml/minute irrigation flow rates for working in the facial recess
- Snap-on cassette for easier set-up
- Inner diameter of tubing enables continuous flow, even at low flow rates

Multifunction Footpedal

Ergonomic control at your feet

- Three buttons provide maximum control
- Built-in footrests and ergonomic angle for comfort
- Hoop locks firmly in place, then collapses easily for storage
- Non-slip design and compact size is ideal for your O.R.

Indigo™

High Speed Otologic Drill

- High speed and ample torque for fast debulking of the mastoid
- Available with straight and angled attachments
- Improved surgical access and visibility in narrow otologic spaces
- Works with a wide variety of Medtronic Xomed otology burs
- Grooves on attachment nose design allows for more stable irrigation

Anterior Skull Base Surgery

The complete solution for superior visualization

- Curved burs and blades allow better visibility and access
- Integrated suction keeps surgical site clear

The IPC platform is the ONLY powered ENT system that provides the widest range of application-specific products.

Stim Bur Guard for the Visao® Otologic Drill

Integrated facial nerve monitoring

- Provides 1-3 mm advance warning of facial nerve proximity
- Helps reduce the risk of patient injury for added peace-of-mind
- Works with our NIM® intraoperative nerve monitor*

*For use with Medtronic's NIM® 2.0 and 3.0 nerve monitoring systems
